¹ Market values and time weighted returns of Real Asset Partnerships are net of investment expenses and are computed by AREIS Investment Book of Record and reflect financial statements received through the end of the reporting period. Only partnerships with asset values greater than \$50,000 are included in reporting.

*NM (not meaningful) generally applies to instances when a portfolio or partnership is either funding or liquidating. In these instances, any profit and loss relative to a small capital deployed can materially distort time weighted return results.

**Market value and total return includes the impact of CalPERS foreign currency hedges on the underlying Real Assets partnership.

As of December 31, 2022
