**Re: Agenda Item 5g: Consultant Review of CalPERS
 Divestments**

Dear Mr. Miller:

In accordance with CalPERS' Total Fund Investment Policy, Wilshire provides the Investment Committee with financial performance analysis of CalPERS' active divestment activities on an annual basis. This report, which summarizes the results of that analysis through June 30, 2024, does not attempt to assess the broader societal or environmental net impacts from CalPERS' divestment activities.

Summary of Analysis

The following table summarizes Wilshire's estimates of the transaction cost and return impacts from divestment activities since their last affirmation in March 2021.¹ The present value figures below have been calculated to show the estimated impact on the total fund through June 2024 whereby prior period gains and losses are carried forward at the PERF's total return. The percent (%) impacts express these present value dollar amounts against the PERF's June 2024 market value of \$503 billion.

Active Divestment Programs (Last Affirmation to FY 2024)

	Present Value Estimate		Program	Estimates Begin in
