I John Fallis

I am sending you this letter to please reconsider my application for a industrial retirement. The reason for denial was late application. First and foremost i am disabled from working at the state of California dept of correction.

I was late do to the work comp doctor was refusing to submit the reason for the industrial retirement. and it was in the height of covid and things where almost impossible to retrieve info. Plus i feel that mistakes can be made by both Me and Calpers. I would truly appreciate you consideration in this matter
